This Pre-Kindergarten year is designed to address the developmental and educational needs of children who are turning four by October 1, 2019. Students forge further ahead into the world of learning and continue to develop school readiness skills. Learning center activities are offered to the children to assist them in increasing their attention span, reinforcing cognitive skills, and introducing new concepts. Whether they are weighing and measuring, tracing and cutting, cooking or baking, reading or writing, they are active learners, building their confidence and knowledge base. Understanding the way young children learn best, we use play and interactive, engaging, hands-on experiences to make learning fun and meaningful.

One Certified Teacher and an Assistant with each class of 15-16 children
